Sponsorship Brochure

Manager's Foreword

Thank you for your interest in Team Vimaanas!

SAE AeroDesign is an international competition in which hundreds of teams from universities all across the globe seek to design and fabricate a remote-controlled aerial vehicle by implementing engineering, concepts and fundamentals learnt in the classroom. The rules and guidelines of the competition are challenging the teams to constantly improve and innovate, while taking giant strides forward in the field of aviation technology. The novelty of designs used and innovation in the field of aerospace can be potential patents and can be utilized for defense and reconnaissance purposes.

Team Vimaanas is an official entrant in SAE AeroDesign for the past -7 yeard. The Team comprises of ao members from various streams of VIT Diversity, who put in a combined effort all around the year in an attempt to outdo ourselves every season. In the course of designing and fabricating the aircraft, we receive an education like no other, gaining first-hand experience and knowledge as well as sharpening our marketing,budgeting, communication, time, production and re-source management skills. Our unwavering commitment and work ethic urges at to continuously improve on our model year after year.

Sponsorship is an integral aspect in ensuring our Team's success. Financial and Product support will definitely assist us in pursuing and achieving the hest in SAE AeroDesign.The generosity of our sponsors enables to continue innovating and refining our designs and build a powerful, responsffie, cost-effective and successful Unmanned Aerial Vehicle. A partnership is afficybeneficial to a sponsor in ters of international and national reputation, itmell as in enriching the organizmation's Corporate Social Responsibility profilk. I assure you that your support will be fruitful and rewarding.

With warm regards,

“

About VIT Vellore
